

XCOMP MISSION

We know that functionality is the essence of the IT industry. We specialize in providing tailored solutions that enable clients to achieve their goals. Our employees are the greatest value of our company. It is thanks to their expertise and passion that we can turn complex issues into user-friendly tools.

The success of our company is a combination of openness, flexibility, bravery and creativity.

Our VISION

We aim to be the most valued IT technology company in Poland, honestly built on passion and knowledge.

PRIME VALUES:

Product portfolio: we want to offer high-quality brands that we are certain of.

People: We want to be a friendly workplace that inspires people to make the best of their potential.

Partners: we want to build lasting values by constantly developing, improving and maintaining a proven network of customers and suppliers.

Efficiency: We want to be a highly flexible, effective and fast growing organization.

Profit: we want to maximize long-term profit so that no one in our organization has to worry about their future.

Environment: we want to be a responsible company, committed to supporting local communities.

Quality: we constantly strive to provide comprehensive IT services and products that meet the requirements and expectations of our clients.

Information security: we treat information as one of the key elements of our system ensuring its continuity, integrity and availability.
